

RIFTON ACTIVITY CHAIR

The Rifton Activity Chair could be considered the ultimate design in classroom (and home) seating. Versatile, adaptable and dependable. All seating adjustments can be made without the use of tools by the therapist or teacher. Adjustable to suit most classroom activities including desk or table height.

The ideal feeding chair, the Rifton Activity Chair will suit the child needing only a small amount of support through to the child with greater needs. The angles of the tilt in space and backrest incline can be measured to replicate those recommended by your therapist and can be adjusted whilst the child is in the chair.

The Rifton Activity Chair's three sizes have so much growth potential that they will be suitable for years of use and are available for clients from 71cm in height, weigh up to 34kg through to 188cm in height, weighing up to 102kg.

With a choice of either a standard or Hi/Lo base and large range of accessories available the Rifton Activity Chair is sure to offer a solution for most of your seating needs.
